

# 2011-2013 LIFE Steering Committee

---

At its inception, the LIFE Steering Committee was a sub group of the Community Planning Council of Marathon County. Currently the LIFE Steering Committee operates independently.

The purpose of the LIFE Report is to:

- Identify community strengths and priorities that help guide and mobilize action to improve life in Marathon County.
- Serve as a resource (a centralized, easily accessible source of data) to nonprofit organizations, policy makers, government entities, faith based organizations, foundations, corporations, and others.
- Be an effective tool in raising awareness in our community on quality of life issues and to monitor trends and underlying causes.
