Ensuring the Integrity of the Entries:

Those individuals who qualify for the cash prizes are automatically and systematically (not manually) entered into the drawing as their pledges are processed. Participating in public sector campaigns provides individual donor information, which is audited, so public sector qualifiers

can be assured they will be included, and there is little room for human error. Companies or their corporate headquarters, who do not typically provide individual pledge information within this timeframe, may submit a list of qualified employees. Those names are added to the database of automatic qualifiers. Additionally, those who submit an entry outside of the automatic qualification process are also entered into the database.

The Director of Resource Development or another member of the Resource Development team will pull a list of those who qualify and verify it by the Director of Finance/Administration to ensure everyone's inclusion before the drawing. The final list of entries will be assigned a random number. A computer-generated number from the total assigned field of numbers will determine the nine winners.

Although the Sponsor cannot publish the list of all those who qualify if an Employee Campaign Manager requests a list of their company qualifiers, the Sponsor can provide it before the drawing, but after all pledges received by December 31, 2026, have been audited and processed.

**No donation necessary. Void where prohibited.
Donations will not improve the chances of winning.**
