Build Your Future with County Materials

#workatcounty

<https://www.countymaterials.com/en/careers>

What you do for a career is very important. When you work for a manufacturing company, you are building more than a career; you are building a life for yourself and making a difference in local communities.

Our company offers team members stability through employment, competitive wages and benefits, and worthwhile jobs that support growing communities. Like a well-oiled machine, our team members work together to meet the challenges of the job and achieve a common goal. Manufacturing is critically important to the U.S. and vital in our communities. County Materials manufactures and delivers concrete products used in growing communities where Americans live, work and play. People trust us to supply products that build long-lasting, safe buildings and structures like the homes, schools, hospitals, water management systems and bridges we rely on every day. This is a big responsibility that we take seriously. That's why we are always looking for people with a strong work ethic and problem-solving skills to join our company.

Even if you don't have manufacturing experience, County Materials offers training and development opportunities so you can realize your potential in a growing company. No matter where you start, there is a path to grow within our organization.

Additionally, with more than 40 locations in six states, we offer opportunities for relocation. Leave your mark on the world's skyline and feel a sense of pride and satisfaction with the work you do each day.

Benefits Summary:

Description of upcoming events or information (upload or provide link to campus visits, summer camps, helpful websites, video chats, etc.)

The Community College of the Air Force is a federally-chartered academic institution that serves the United States Air and Space Force's enlisted total force. We partner with 112 affiliated Air and Space Force schools and 300 Education Service Offices located worldwide to serve approximately 270,000 active, guard, and reserve enlisted personnel, making CCAF the world's largest community college system. The college annually awards over 22,000 associate in applied science degrees from 71 degree programs.

We strive to meet the demands of the Air and Space Force's expeditionary environment and at the same time help airmen and space professionals achieve their educational goals by capitalizing on job-related training and education as part of flexible degree completion programs.
